What are the risks of investing?

Risk indicator for the NZ Bond Fund:

Risk indicator

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://www.sorted.org.nz/tools/investor-profiler>

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of the fund's future performance. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

Annual Returns Graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 September 2024.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the NZ Bond Fund are charged fund charges. In the year to 31 March 2024 these were:

Total fund charges (including GST)	0.10%
------------------------------------	-------

Which are made up of

Total management and administration charges	0.10%
---	-------

Including:

Manager's basic fee	0.10%
Other management and administration charges	0.00%
Total performance-based fees	0.00%

Other charges

Dollar amount per investor

Administration Fee	\$0 per year
--------------------	--------------

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds).

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Artie had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Artie received a return after fund charges were deducted of \$1,168 (that is 11.68% of their initial \$10,000). This gives Artie a total return after tax of \$829 for the period.
